

Specialty Clinics

Neurological Rehab Clinic

Neurological Rehab

Neurological rehabilitation is provided by the Physiotherapy & Rehab Centre on the main campus and provides comprehensive rehabilitation interventions to help patients with conditions of the central nervous system, multiple sclerosis, stroke, cerebral palsy, motor neuron disease, brain injury, and spinal cord injury. The Physiotherapy & Rehab Centre helps patients with injury or illness that affect the brain, spinal cord, or nerves.

The Physiotherapy & Rehab Centre has programs to meet the needs of patients with neurological conditions including such disorders as Parkinson's, Traumatic Brain Injuries, and spinal cord injuries. Using various practices and modalities, our physiotherapists work together to manage symptoms and pain for a multitude of neurologic diagnoses. Using standardized functional and pain scales, the physiotherapists monitor the efficacy of their treatments and modify them accordingly to provide the highest level of care.

Gunjan Vermani

Director and Registered Physiotherapist

She has been practicing physiotherapy from 2006 and completed her 2 years specialization in Neurological Sciences (University Topper) in 2008. She has been taking many hands-on workshops and courses to continuously enhance her clinical knowledge and skills.

Gunjan is certified in the treatment of urinary incontinence, central pain management, Concussion rehab, Manual therapy level 1, and performs acupuncture and dry needling.

She is also an ADP Authorizer for walkers and wheelchairs apart from assessing and prescribing for orthotics, compression socks and custom bracing.
